With the Pan Pacific Merchandiser, you can speed up lines as customers can self-shop and pay right at the merchandiser. Large touch screen display lets customers see and get details on products as well as run digital education information so accurate information is delivered every time.

This high tech new system is your business partner that works 24/7 and keeps your customers happy.

Cloud based account information is at your finger tips so you can see what is and what is not moving. Also allows you to change product prices without even having to go to merchandiser. Update products and give discounts all without ever opening the door.

For more information on this model as well as all the Pan Pacific Line of Merchandising Systems visit our website at <http://www.panpacificinternational.com> or call 704-718-3158 to speak with a representative.
